Goals

- **Is it acceptable for one or two team members to do more work than the others in order to get the team an A?**
  - It is not acceptable for one or two people to do a disproportionate amount of work to get the group an A, but it is acceptable for other team members to help out another team member if that team member is struggling.

Meeting and communication norms

- **How will you use the in-class time?**
  - We will use the class time to ask our TA mentor questions, as well as discuss progress we've made during our time between classes. We will use any remaining class time to work on the project itself and debug/fix problems.
- **How will you communicate outside of meetings?**
  - We will use FB messenger to communicate outside of meetings. We will work through zoom if
- **How and when will you work and/or not work around the Thanksgiving holiday?**
  - We plan to do less work over the break, but if we feel that there is lots of work to be done, then we will plan to work and meet to stay on track. We will look at the project early on in the break, so we have a good idea of what else needs to be done

Work norms

- **How will work be divided among team members?**
  - (See latin square below) The work division is not set-in stone as of now.
- **Where will you record who is responsible for which tasks?**
  - We will record specific tasks in an Excel sheet
